

Ski Performance Report

Alex

RUN 3 • June 14, 2026

BLUE IQ

210 / 240

EXCELLENT

Overall Performance

Alex demonstrated solid skiing skills with a final score of 210, indicating excellent performance overall, though there are areas for improvement.

Pressure

203 / 240

EXCELLENT

Pressure management was consistent but could be more dynamic. Maintain the same pressure control while increasing turn shape and speed.

Balance

209 / 240

EXCELLENT

Balance showed variability, particularly in the first part of the run. Keep the same centered stance while challenging the skier with more varied turn shapes.

Rotation

209 / 240

EXCELLENT

Rotation improved significantly in the middle parts of the run. Maintain disciplined rotation while increasing tempo and precision.

Edging

216 / 240

EXCELLENT

Edging was strong, especially in the middle and final parts of the run. Preserve strong edge control while increasing speed and consistency.

Improvement Areas

- 1 Maintain the same pressure control while increasing turn shape and speed.
- 2 Keep the same centered stance while challenging the skier with more varied turn shapes.
- 3 Maintain disciplined rotation while increasing tempo and precision.
