

Ski Performance Report

One-page coaching summary generated from Blue IQ analysis

Overall Performance

The athlete demonstrated solid performance with strengths in edging and pressure management, but there are areas for improvement in balance and rotation.

Pressure

203 / 240

EXCELLENT

Pressure management was consistent throughout the run. Maintain the same pressure control while increasing turn shape and speed.

Balance

209 / 240

EXCELLENT

Balance was weaker, particularly in the first part of the run. Keep the same centered stance while challenging the skier with more varied turn shapes.

Rotation

209 / 240

EXCELLENT

Rotation improved in the middle parts but still needs refinement. Maintain disciplined rotation while increasing tempo and precision.

Edging

216 / 240

EXCELLENT

Edging was strong across the run, showing good control. Preserve strong edge control while increasing speed and consistency.

Improvement Areas

- 1 Maintain the same pressure control while increasing turn shape and speed.
- 2 Keep the same centered stance while challenging the skier with more varied turn shapes.
- 3 Maintain disciplined rotation while increasing tempo and precision.
